Diapsys sign an agreement with Creaform to resell TTF Project Reviewer™ in North America

Lévis, Québec, Canada - September 14, 2004 – Diapsys, North American representative of TTF and CREAFORM, announced the signature of a reseller agreement for Project Reviewer™, TTF's Collaborative Engineering and multi-CAD DMU Solution.

Under the terms of this agreement, CREAFORM will provide to North American aerospace, automotive and transportation industries 3D Digital solutions capable to perform multi-cad project reviewing and real time collaboration in the extended enterprise and suppliers. CREAFORM offers a wide range of innovative technologies services for Scan and 3d digital technology.

This agreement combines the industry-specific expertise in 3d digital solution and product development compression technologies of CREAFORM to propose to North American market interoperability and multcad project reviewing capabilities.

"TTF project reviewer is the latest and most innovative technology to solve 3D data interoperability challenge and collaborative product development in the extended enterprise," said Charles Mony, president, Creaform. *"We committed to provide to our customers 3d digital solutions for saving time and cost facing the interoperability in a multcad environment".*

"This partnership is part of our ongoing effort to develop strong sales channel with innovative companies like CREAFORM and bring these 3D data interoperability and collaboration solutions to the PLM market" said Khaled Moussa, Vice-President business development of TTF Group. *"Customers are expecting this functionality to be part of their PLM solution and we are pleased to have Creaform help us deploying this vision.*

About Creaform Creaform is a leader in Scan and 3d digital solutions with main expertise in 3d laser scan, digital styling and product development, data interoperability and review, and 3d inspection. Creaform is committed to support its customers from aerospace, automotive, transportation in North America and Europe with a complete offer in technology and services. www.creaform3d.com

About DIAPSYS Located in Montreal-Canada, DIAPSYS represents TTF on the North American market. DIAPSYS main mission is to find providers for Project Reviewer™, TTF's Collaborative Engineering and multi-CAD DMU Solution. For more information, visit www.diapsys.com

About TTF Located in Lyon-France, TTF develops, markets and supports best-in-class solutions for CAD data INTEROPERABILITY (TTF Foundation libraries), multi-CAD DIGITAL MOCK-UP and Collaborative Engineering solutions (Project Reviewer). Active in the automotive, aerospace, machinery and consumer products industries, TTF offers services including installation, maintenance, training, and other specialist developments worldwide.
