Diapsys forms a partnership with Processia Solutions to resell TTF Project Reviewer™ in North America

Blainville, Montréal, Canada - September 14, 2004 – Diapsys, North American representative of TTF and Processia Solutions, announced the signature of a reseller agreement for Project Reviewer™, TTF's Collaborative Engineering and multi-CAD DMU Solution.

Under the terms of this agreement, Processia Solutions will provide to North American aerospace, automotive and transportation industries solutions capable to perform multi-cad project reviewing and real time collaboration in the extended enterprise and suppliers. Processia Solutions offers a wide range of services such as business process analysis, EAI systems integration, software application customization, and project management.

This agreement combines the industry-specific expertise and PLM knowledge of Processia Solutions to propose enhanced project reviewing capabilities, PDM or without.

"We are committed to TTF Project reviewer solution because we believe companies are facing tremendous lost of time and money with CAD interoperability," said Marc Allard, president, Processia Solutions. *"With today's realities, companies merge and acquisition, constructor and first/second tier suppliers with data exchange are facing real collaboration problems due to geographic localization which can be resolved with TTF Project Reviewer™ solutions'.*

"This partnership is part of our ongoing effort to develop strong sales channel with innovative companies like Processia Solutions and bring these 3D design revision and collaboration solutions to the PLM market" said Khaled Moussa, Vice-President business development of TTF Group. *"Customers are expecting this functionality to be part of their PLM solution and we are pleased to have Processia Solutions part help us deploying this vision.*

In the next years, Processia will continue to innovate and develop additional software products around the Project Reviewer™ solutions. *"Using our PLM integration and development expertise with TTF products, we are now able to propose custom portal solutions to meet customer's demand"* said Vincent Fraser, director of Sales and Marketing at Processia Solutions.

About DIAPSYS

Located in Montreal-Canada, DIAPSYS represents TTF on the North American market. DIAPSYS main mission is to find providers for Project Reviewer™, TTF's Collaborative Engineering and multi-CAD DMU Solution. For more information, visit www.diapsys.com

About Processia Solutions

Processia Solutions is a leader in the PLM services area with main expertise on the ENOVIA, SMARTEAM and CATIA suite of products from Dassault Systèmes. Since 1996, Processia Solutions has served customers from different industries (aerospace, automotive, transportation, etc.) with a comprehensive suite of services that includes consulting, solution design, Application Integration/EAI and Implementation services. Processia has developed integration solutions (VPMWired and ProcessiaServer) and a visualization solution (VPMViz) which empowers the full benefits and ROI of a PLM implementation.

About TTF

Located in Lyon-France, TTF develops, markets and supports best-in-class solutions for CAD data INTEROPERABILITY (TTF Foundation libraries), multi-CAD DIGITAL MOCK-UP and Collaborative Engineering solutions (Project Reviewer). Active in the automotive, aerospace, machinery and consumer products industries, TTF offers services including installation, maintenance, training, and other specialist developments worldwide.
